

## AJ-RC10G

Remote Control Unit

### overview

The AJ-RC10G Remote Control Unit provides a "One-Button per Function" capability, which allows you to view menus directly on the remote control without having to access the camera's menu function.

The AJ-RC10G remote control works with the AJ-HPX3700 (VariCam 3700), AJ-HPX2700 (VariCam 2700), AJ-HPX3000, AJ-HPX2000 and AG-HPX500 P2 HD camcorders, and AJ-HDX900 DVCPRO HD camcorder. It utilizes a 10-pin cable and connector providing for additional control and strength. The remote control also has a Monitor Out for viewing as well as an SD Card Slot to save scene files.
