D-3004S 4-channel V-mount Charger

D-3004S is a 4-channel simultaneous charger in SWIT DIBAS system. It has a large LCD screen and it will display battery information: charging current (mA), charging time (min), real-time voltage (mV) and real-time capacity (mAh). And when charging SWIT DIBAS battery D-8081S/8111S/8161S, it will display additional information such as model, chemical type, cycle times, and so on, for users to examine, optimize and manage the DIBAS batteries.

- ◆ 4 channels simultaneous charge
- ◆ 1 channel discharge
- ◆ Large LCD display
- ◆ Read digital battery information
- ◆ Compatible with Li-Ion, Ni-MH and Ni-Cd
- ◆ V-mount plate
